

HOHHOT BOULEVARD MASTER PLAN

Hohhot Boulevard Master Plan

Length : 8 km

Grade of the road : Major distribution road

Note :
The above quoted figures are indicative only.

Genghis Khan was one of the most famous emperors in China, and a great leader in the hearts of the Mongolian people. The authorities of Hohhot planned to make the Genghis Khan Boulevard a famous symbol of Inner Mongolia. MVA was invited as part of the international consultant team to advise on transport planning issues. EDAW

according to the proposed master plan, and also commented on the road network from a transport point of view.

(the lead consultant) carried out a town planning study, landscape design, economic analysis and so on. MVA proposed various transport schemes

The study tasks included:

- Understanding existing land use and transport situation
 - Review of current transport planning (highway)
 - Road network and junctions
 - Access options for core square
 - Circulation schemes for core square
 - Traffic management measures
 - Public transport schemes (tram, corridors, depot, feeder bus)
 - Pedestrian and cyclist facilities (corridors)
 - Parking standard and locations
- This project received plentiful support from the local government and local experts.
